PERFECT FLOW

SUSTAINABILITY IN FOCUS

Responsible Product Design

Our products contain durable material and have a thoughtful and responsible design, ensuring a long product life.

UN Global Compact

We are committed to the UN Global Compact's 10 principles for sustainable development within human rights, labour, environment and anti-corruption.

PART OF INDUTRADE

As part of Indutrade, we operate by the following principles:

Legal compliance

Our work abides with applicable laws in the countries in which we operate.

Ethical business practises

Our goal is to operate in an ethical manner and we shall conduct legally sound business practices in all respects.

Meaningful stakeholder dialogue

We aim to conduct our operations through meaningful dialogue with our employees, our business partners and with other stakeholders who affect, and are affected by, our operations.

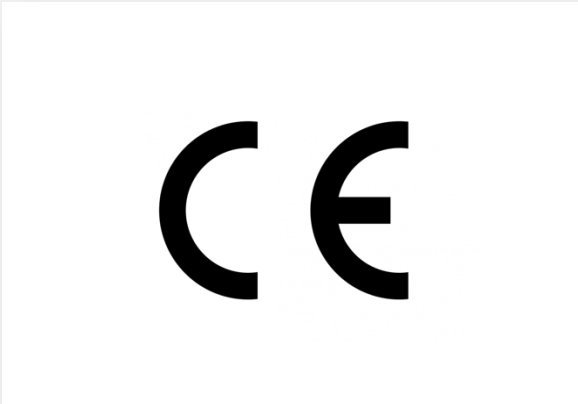

Employee responsibility

Our employees are to comply with Indutrade's principles and to take responsibility both for their own behaviour and Indutrade's products and services.
